Welcome Address

Dear Colleagues and Friends,

The promotion of quality management is essential. Treatment outcome assessment, research outcomes, guidelines, best papers and best practices are not known by all practitioners.

For this reason, the European Spine Journal organizes its third Spine Sciences “Meet the Experts™” Forum focusing on revision surgery.

Experts in this field have been carefully selected and asked to provide the Journal with an article describing their techniques and experience. These articles will be published as a ‘special issue’ of the European Spine Journal.

The Spine Sciences “Meet the Experts™” Forum aims at optimizing exchanges of knowledge.

This meeting will be highly interactive. With this scope, the format has been designed and based on interactive case-based discussions with experts - rather than on lectures - with residual time left for discussion. You will have the opportunity to interact with some of the most respected world experts in the field, while bridging between state-of-the-art sciences and clinical practice.

We look forward to seeing you in Madrid!

Robert Gunzburg
Editor-in-Chief European Spine Journal
